1914

SEASON 1913-1914

JUL 29 1921
U.S. Department of Agriculture

WHOLESALE PRICE LIST OF
NURSERY STOCK

GROWN SPECIALLY FOR EXPORTATION

In the Nurseries of

Charles Detriche, Senior

ANGERS (France)

Specialities :

FRUIT TREES and ROSE STOCKS

Forest and Shade Trees seedlings

Ornamental Shrubs, Conifers, Roses, etc.

Jackson & Perkins Co.,

NEWARK, New-York

Sole Representatives for United States and Canada

Cable addresses :

CHARLES DETRICHE, ANGERS ··· PERKINS, NEWARK, NEW YORK

AUGUST 1st 1913

ALL PREVIOUS LIST ARE HEREBY CANCELLED

It is impossible to give most sizes of the nursery stocks offered herein as the seedlings are still growing at the time of printing this catalogue.

TERMS AND CONDITIONS OF SALE

All orders are taken subject to Mr. Détriche's acceptance and to pro-rata delivery in case of loss of crop from frost, drought, floods, insects or any other uncontrollable cause.

Orders for spring deliveries are booked and supplied as complete as possible without assuming however any responsibility in case of shortages.

All shipment travel at risk and cost of purchaser.

Quotations do not include cost of boxes, freight, duties or any other expenses of importing all these are to be borne per purchaser.

All claims must be made upon receipt of goods.

Responsibility. — After goods are placed on board cars here, we assume no responsibility for their safe delivery or any injury caused by delay in delivery by the transportation companies.

Deliveries are made from the first part of December to the end of February; we commence as soon as the stocks are ripe enough for digging and packing.

Orders for light grades of stocks cannot be delivered much before end of December. A small delay is to be expected in the shipment of such orders.

Payments : *All accounts are due net on June 1st, next to delivery.*

Annual interest of 6 per 100 charged on over due accounts.

3 0/0 discount is allowed for payments in advance or made in December or January, on cost of stocks only, packing charges must be paid *net*.

References or remittances are required from unknown correspondents. Checks must be made out in dollars on New-York.

Important. — The labelling of the stock is made very carefully, however, in case of error, I will accept to replace free or refund the amount paid me for any stock not true to name, but am not liable for other damages, provided the error is mentioned as soon as it is visible, not later than the year of the plantation.

Expenses of importing Mr. Jackson et Perkins Co., are usually able to save customers considerable upon the expenses of importing. Excepting for orders from eastern points, all shipments are combined in carload lots and sent through *in bond to Rochester, N. Y.* This enables the Jackson & Perkins Co., to attend personally to customs entry, for which service no charge is made, excepting actual expenditures. This firm also secure a very low freight rate from Angers direct to Rochester, avoiding all cartage charges in New-York and nearly all the other fees and expenses that are usually levied on import shipments.

The varieties here listed comprise only a part of the assortment grown by Mr. Detriché. For prices on other varieties apply to Jackson et Perkins Co.

**My nurseries are placed under control of the French
entomological service.**

The caliper or thickness of the stocks at the collar is given in millimeters $\frac{25}{mm} =$ one inch.

Crop is very small on all kinds of fruit tree stocks this season

Low budded roses are the most suitable for exportation, they are strong field grown plants. The list above includes the varieties grown in larger quantities, if other varieties are wanted, customers are respectfully invited to ask these, being confident that I. could supply them in good stuff.

NEW ROSE FOR AUTUMN 1913

“ **Madame Edouard Herriot** ” (*Daily Mail Rose*)

(*Pernet Ducher*)

Plants pruned ready for planting : \$ 1.30 each ; \$ 12 per 10

Pernetiana kind, everblooming rose, vigorous and hardy sort, bud bright red shaded yellow on the basis, middle flower of a bright red colour, shaded of yellow. Superb variety.

This sort kept the admiration of visitors at the International horticultural show in London (England) in May 1912, and was awarded of the *Gold cup of the "Daily Mail"*.

It was awarded also a Gold medal at the National Rose society of London in May 1913.
